Part Number Change for Some of Passive Standard Products

Dear Customer,

Thank you for choosing KYOCERA Display America as your LCD solution provider, we appreciate the opportunity to support your business.

1. Part Number Changes

We would like to inform you of our LCD part number revision change for the following products.

- 1) F-51553GNBJ-LW-AEN → F-51553GNBJ-LW-AFN
- 2) F-55472GNFJ-SLW-AAN → F-55472GNFJ-SLW-AFN
- 3) F-55472GNBJ-LW-ACN → F-55472GNBJ-LW-AGN
- 4) C-51847NFJ-SLW-ADN → C-51847NFJ-SLW-AEN
- 5) F-55471GNBJ-LW-AGN → F-55471GNBJ-LW-AHN
- 6) F-55471GNFJ-SLW-ADN → F-55471GNFJ-SLW-AIN

2. Reason for change

In order to better utilize each factory's capacity, we decide to move the first part of the panel production from our China factory to our Japan factory. Then it will be transferred to our China factory to finish into the final module. A part number revision level change is needed for our traceability and our production management.

There is no change in performance and the part will be form, fit, and function the same. We apologize the inconvenience we bring to you and hope you can support us on this transition.

3. Schedule

- Spec: March 11th, 2013
- Change effective date: March, 2013

Should you have any questions, please contact KYOCERA Display America sales representative.

Sincerely yours,

KYOCERA Display America, Inc
